Summary

The Federal Agricultural Marketing Authority (FAMA) has been operating since September 1965. FAMA is also known as “Lembaga Pemasaran Pertanian Persekutuan”. The existence of FAMA is to help all farmers in domestic to market their agricultural products to all over the country and international market. However, there is some problem regarding to the overloading of agricultural products in Malaysia. Therefore, the purpose of this report is to help and to recognize the real problem that caused the overload/dumping of agricultural product problem that faced by FAMA and the farmers. This report is also for recognizing the way to resolve and minimize the loss that was faced by farmers. These researches are focuses on dumping cabbages vegetable at Cameron Highlands in year 2009. The price of 1 kg cabbage went down drastically. The effect from the situation is FAMA must take high risk to take/buy all cabbages vegetable from farmers to cover the cost of farmers and this organization faced heavy losses. The information of this report was obtained by the use of secondary data.

The findings show that the good cooperation between FAMA and farmer can help to prevent the dumping cabbage vegetable from happen. It also can help to control the supply of approval permit (AP) that was give to import product (cabbage vegetable) and it can help to control the price of cabbage from falling down drastically. Other than that, the farmers must control the cabbage manufacture/produce from overload. It is recommended that FAMA Cameron Highlands and also all farmers should take responsibility and have a good cooperation with each other to make sure that the dumping of cabbages vegetable problem will not happen again and the price can be at safe range.

Acknowledgement

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

“In the name of Allah SWT, the Merciful and Beneficent”

Praise is to Allah S.W.T for the blessing and giving me the strength and health to complete this project paper. First and foremost, I would like to thank you my kindness advisor, Mr. Mohamad Sayuti B. Md Salleh and my second examiner PM Roslan B. Ab Rahim for their invaluable advice, comments and constant guidance during the progress of my project paper.

I would like to express my special acknowledgement to my supervisor, Mr. Samad B. Salih for giving me an opportunity to doing industrial training at the organization and gives valuable information about the problem of overload product agriculture that happen in operation centre of FAMA Cameron Highlands. Not to forget to my beloved friends at Financial Department, Hajariah Bt Othman and Nur Amirah Bt Azmi and also to my friends at other department, Norhalidah Awina Bt Khalid and Mohd Fardaus B. Nordin for their help and give an idea for me in done this industrial training report. I also wish to extend my gratitude to all wonderful staff of FAMA Cameron Highlands, which gives full cooperation in helping me to finish my research.

Sincere appreciations to my beloved family, especially my parents Mr. Mahmood B. Ghafar and Madam Sufuah Bt. Adam who are give full supports and encouragement in the process to finish this project paper. Last but not least, special thanks to all beloved friends who are shared their experiences, time and commitment in finishing this report.
